Professional Summary

Motivated Computer Science graduate with hands-on experience in MERN Stack development (MongoDB, Express.js, React.js, Node.js). Skilled in building full-stack web applications with authentication, REST APIs, and database integration. Passionate about learning new technologies and contributing to innovative development teams.

Technical Skills

Frontend: React.js, HTML5, CSS3, JavaScript

Backend: Node.js, Express.js

Database: MongoDB

Authentication: JWT, OTP Verification

Tools: Git, GitHub, VS Code

Other: REST APIs, Basic DevOps Knowledge

Projects

MERN Stack Event Booking Web App

Technologies: React.js, Node.js, Express.js, MongoDB, JWT

- Developed a full-stack event booking web application using the MERN stack.
- Implemented user authentication using JWT and OTP verification for secure login.
- Built an admin panel to manage events, bookings, and users.
- Designed RESTful APIs for frontend-backend communication.
- Implemented responsive UI using React components.

Experience

Online Internship – Coursera

- Completed online internship/training programs focused on web development technologies.
- Worked on practical assignments involving JavaScript, backend APIs, and full-stack concepts.
- Strengthened understanding of modern web application development.

Education

Bachelor of Technology (B.Tech) – Computer Science / Related Field
Graduated: 2025
